

Gibbons Pump House – Pump Replacement

PROJECT DETAILS

The ACRWC will be replacing an existing pump in the Gibbons pump house with a newer version.

Why is this project important?

The pump is nearing its end of life and needs to be replaced to ensure ongoing reliability.

PROJECT TIMELINES

Construction is planned to start in August 2023 and is expected to take three months to complete.

WHAT TO EXPECT

Workspace

All work will take place within the pump house site, so there should be no public impact.

Environmental Protection

As an environmental leader, the ACRWC is committed to following all applicable legislation and regulatory requirements. We are ISO 14001 certified for

Environmental Management and we also hold this same high standard for contractors working on our behalf.

Hours of Work and Noise

It is not expected that this work will create excessive noise. If it is deemed necessary to exceed allowable noise levels on a temporary basis, prior approval and permits will be obtained from the town.

Safety

Work areas will be kept safe and secure and work will be conducted in accordance with Sturgeon County bylaws, Alberta Occupational Health and Safety Requirements, and the ACRWC's safety policies.

WHO IS THE ALBERTA CAPITAL REGION WASTEWATER COMMISSION?

Established in 1985, the ACRWC is a not-for-profit commission operating under the Municipal Government Act that provides wastewater transmission and treatment services to approximately 330,000 residents in 13 municipalities within the Edmonton Area.
