

St Albert Regional Trunk Rehabilitation – East of 17th St.

PROJECT DETAILS

The ACRWC will remove existing wastewater sewer pipe and install approximately 785 meters of new pipe, east of 17th Street NE and directly north of 182 Avenue NW.

Why is this project important?

The goal of the project is to address the aging structural condition of the pipes and to increase pipe capacity.

PROJECT TIMELINES

Construction commenced in October 2022 and is scheduled to be complete by May 2023.

WHAT TO EXPECT

Workspace

There will be some temporary and short duration traffic disruption when trucks and equipment are turning in and out of the construction accesses. Bypass hoses may be located within road right of ways (ROWS).

Environmental Protection

As an environmental leader, the ACRWC is committed to following all applicable legislation and regulatory requirements. We are ISO 14001 certified for Environmental Management and we also hold this same high standard for contractors working on our behalf.

Hours of Work and Noise

It is not expected that this work will create excessive noise. Our team will comply with City of Edmonton Community Standards Bylaw 14600. If it is deemed necessary to exceed allowable noise levels on a temporary basis, prior approval and permits will be obtained.

Safety

Work areas will be kept safe and secure and work will be conducted in accordance with City of St. Albert bylaws, Alberta Occupational Health and Safety Requirements, and the ACRWC's safety policies.

WHO IS THE ALBERTA CAPITAL REGION WASTEWATER COMMISSION?

Established in 1985, the ACRWC is a not-for-profit commission operating under the Municipal Government Act that provides wastewater transmission and treatment services to approximately 330,000 residents in 13 municipalities within the Edmonton Area.
